

Club Runner APP update

What's New

District Search now supported!

Introducing enhanced member search functionality! You can now effortlessly search for other club members within your district by name or email address within the app making connecting easier than ever.

In the “District Menu” left-side menu called “Member Search

Classification and Membership type are now shown in member profiles.

On the log in page within the app, you can now reveal your password by clicking the eyeball icon on the password field, to confirm it's correct.

Online Meeting details such as, meeting comments and link to join the meeting, are now available on the club information page.

Improved how large fonts are displayed in the app.

Addressed an issue where links to external pages in events did not work as expected.

Addressed an issue that was preventing users from saving a member's contact details to their device's contacts list.
