

Calperum Flooring Project by Combined Rotary Clubs – 11th – 14th October

A joint effort from members of **Blackwood, Regency Park and Mitcham Rotary Clubs** has resulted in an extensive upgrade of the large and small accommodation dormitories and the Cook's Room at Calperum Station with new floating floorboards.

A hardworking team of 7 men from the above clubs (see photo), including a few extra volunteers, saw the complete reflooring of the 12 rooms in the large dormitory, 5 rooms in the small dormitory and also the room next to the camp kitchen. The team worked long days and stuck to the task from Wednesday afternoon until late on the Saturday and laid over 150m² of flooring.

Calperum Manager, Julie Robertson, was very appreciative of the effort by the team and was extra pleased that the job was completed just in time for the various rooms to be available to accommodate guests to the **Calperum Station Bush Ball** held on Friday 20th October.

Bruce Cole,

Blackwood Rotary Club
